FOR IMMEDIATE RELEASE

FCL SCORES BIG WITH A 2ND PINSTripES FACILITY

ITASCA, IL – February 26, 2009 - Following on the heels of a successful Pinstripes Bowling-Bocce-Bistro in Northbrook, IL, Owner Dale Schwartz called upon FCL Builders again to build another Pinstripes in South Barrington, IL.

The newest Pinstripes, located at 100 W. Higgins Road in South Barrington, is situated in the Arboretum of South Barrington Lifestyle Center in Chicago's Northwest suburbs. Construction began in April 2008 and was completed (six weeks early) in September 2008 and within budget.

"We had the experience we needed to meet the dramatically accelerated schedule which allowed Pinstripes to be the first restaurant to open at the development," states Carie Carney, Senior Project Manager at FCL. "From building the Northbrook facility, we were able to anticipate potential scheduling issues and take a more pro-active approach for a successful project."

Pinstripes is re-defining the entertainment and dining experience, introducing a higher level of "sophisticated fun" by marrying American and Italian recreation and cuisine. The 41,050 square-foot facility features indoor/outdoor entertainment and dining set in a comfortable and inviting environment. The South Barrington location is accented by large timber trusses both inside and out, 20 bowling lanes, six-indoor and four-outdoor bocce courts, two state-of-the-art kitchens – one to service the main restaurant area and another on the second level to provide services for banquets, a wine cellar, event space which can accommodate 20-500 people and an outdoor patio heated with infra-red technology and a firepit.

FCL Builders is a quality driven, design/build construction company specializing in warehouse/distribution centers, manufacturing facilities, data centers, FDA/USDA processing facilities, retail centers, banks, healthcare facilities, hotels and restaurants, office and sports complexes. The company also offers comprehensive services in site selection, land acquisition and planning, due diligence and has extensive experience in environmental remediation and code compliance. Founded in 1976, FCL Builders has successfully completed more than 763 projects totaling more than 6.7 million square feet valued at \$1.9 billion.
